County of San Diego

General Plan 2020 Update

- ♦ Opportunity for Public Input
- ♦ GP2020 Overview and Contact Information

General Plan 2020

Opportunity for Public Input

The purpose of this brochure is to notify you that the County of San Diego, in conjunction with community planning groups, will be conducting a series of public meetings regarding General Plan 2020.

Purpose of Public Meetings

- ◆ For members of the community to learn more about the County's General Plan; and,
- ◆ To offer comments on changes to the General Plan that are being considered to by the County, community groups, and advisory groups.

B-4

Public Meeting Topics

- ◆ Population distribution as represented in a "Working Copy" of a community land use map. This map depicts the location of land uses and residential densities in your community.
- ◆ Planning principles and concepts that are the basis for the population distribution represented in the "Working Copy" of the land use map.
- ◆ General Plan process, history and other opportunities for your involvement.

These public meetings will consist of community planning group meetings, workshops and/ or open houses in each community.

The meetings will provide several opportunities for individual members of the public to talk one-on-one with staff about how the General Plan changes being considered may affect their community and property.

Meeting Locations and Times

Please check the County's GP2020 website at www.sdcplu.org, call the hotline at (619) 615-8289 or check your local newspaper for information regarding the time and location of public meetings in your community.

What Is General Plan 2020?

The General Plan is a "blueprint" that will guide future physical development in the unincorporated County of San Diego through the year 2020. General plans are required by state law and the County is in the process of preparing a comprehensive update to its existing general plan.

GP2020 is a regional plan for all unincorporated areas of San Diego County that provides policies related to land use, transportation, housing, conservation, public safety, public services and community character. The general plan will also include individual Community Plans for the County's 24 subregions and community plan areas.

Public meetings within the communities are one aspect of a larger process that involves the Board of Supervisors, the Planning Commission, the community planning and sponsor groups, and a Board-appointed advisory committee.

GP2020 Issues

- ◆ **Growth:** The region is expecting about 800,000 new residents by the year 2020 and the unincorporated County needs to accommodate its share of anticipated growth.
- ◆ **Density:** Some areas may realize an increase or decrease in general plan density. "Density" is the number of permanent residential dwelling units allowed per acre.
- ◆ **Community Character:** Changes to land use may impact the location and appearance of roads, parks, homes and schools, shaping the general look and feel of your community.

How Can I Participate?

- ◆ Attend public meetings and open houses for GP2020. See contact information below.
- ◆ Submit comments to the County via a letter or a public input form. Input forms may be obtained at GP2020 meetings and open houses or from our website.
